

UK SUBSIDIARY OBTAINS FCA AUTHORIZATION

Amsterdam, the Netherlands – Flow Traders Ltd. (Euronext: FLOW) announces that Flow Traders London Ltd, its UK subsidiary, has received authorization from the Financial Conduct Authority (FCA). This authorization completes the process of converting Flow Traders’ branch status in the UK to a regulated subsidiary.

As part of the firm’s growth strategy, the authorization enables Flow Traders to increase its exposure to the broader UK financial ecosystem. More specifically, Flow Traders’ UK subsidiary enables the firm to maintain its physical footprint in the UK as well as how it interacts with UK-based financial institutions. In addition, it will enable Flow Traders to strengthen and expand its position in the UK market by growing its network of financial institutions.

Flow Traders B.V. established its London branch office in October 2018. Following the expiration of the temporary permissions regime, Flow Traders London Ltd was incorporated, applied for and obtained independent FCA authorization. The temporary permissions regime allowed for continuing operation in the UK during the Brexit transition period within the scope of Flow Traders’ passport permissions.

Mike Kuehnel, CEO, commented:

“Core to Flow Traders’ strategy is scaling our presence globally across all major financial hubs. We are therefore delighted to have obtained our FCA authorization and successfully completed the process of incorporating our UK subsidiary in line with post-Brexit requirements. This is an important milestone as we systematically grow our presence in the UK, as well as deepen our relationships with existing and new UK-based financial institutions. It also allows us to maintain and foster our unique talent base in the UK market.”

Financial objectives are internal objectives of Flow Traders to measure its operational performance and should not be read as indicating that Flow Traders is targeting such metrics for any particular fiscal year. Flow Traders' ability to achieve these financial objectives is inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond Flow Traders' control, and upon assumptions with respect to future business decisions that are subject to change. As a result, Flow Traders' actual results may vary from these financial objectives, and those variations may be material.

Efficiencies are net, before tax and on a run-rate basis, i.e. taking into account the full-year impact of any measure to be undertaken before the end of the period mentioned. The expected operating efficiencies and cost savings were prepared on the basis of a number of assumptions, projections and estimates, many of which depend on factors that are beyond Flow Traders' control. These assumptions, projections and estimates are inherently subject to significant uncertainties and actual results may differ, perhaps materially, from those projected. Flow Traders cannot provide any assurance that these assumptions are correct and that these projections and estimates will reflect Flow Traders' actual results of operations.
